EFESO's interim leaders are equipped to:

- Stabilize and transform newly acquired companies, safeguarding value in the first 100 days.
- Deliver quick-win improvements that boost EBITDA and cash flow.
- Implement cost and productivity programs aligned to value creation plans.
- Lead restructuring or turnaround initiatives with speed and precision.
- Prepare businesses for exit with improved competitiveness and resilience.

These leaders are seasoned transformation experts who thrive in high-pressure investment contexts, ensuring performance is delivered at pace and at scale.
